CHAMPION PORTABLE SAWMILLS

George Book writes, St Anns, Ontario, June 17th, 1879, regarding his 16 horse power Champion Sawmill: "Last week, on Monday morning, three men of us commenced to tear up mill and move it, we tore up, moved three miles, set it up and on Tuesday at three o'clock sawed a log with it. Not quite two days. In one week we moved and set it up as mentioned, and sawed twenty thousand feet. I will write full particulars soon. We sawed six hundred feet in twenty-nine minutes — inch lumber." Three sizes built—12 H. P. using 44 in. saw, capacity 3 to 1000 per day. 16 H. P. using 48 in. saw, Capacity 4 to 5000 per day. 20 H. P. using 52 in saw, No. 3 saw irons. Capacity 5 to 8000 per day.

DYSENTERY CHOLERA FEVER AGUE, COUGHS, COLDS.
DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than
DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr J. Collis Browne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle

THE LEADING SCIENTISTS OF TO-DAY agree that most diseases are caused by disordered Kidneys or Liver. If, therefore, the Kidneys and Liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restore and keep them in order. It is a **POSITIVE REMEDY** for all the diseases that cause pains in the lower part of the body—for Torpid Liver—Headaches—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever, and all difficulties of the Kidneys, Liver and Urinary Organs.

It is an excellent and safe remedy for females during Pregnancy. It will control Menstruation and is invaluable for Leucorrhœa or Falling of the Womb.

As a Blood Purifier it is unequalled, for it cures the organs that *make* the blood.

READ THE RECORD.

"It saved my life."—*E. B. Lakely, Selma, Ala.*

"It is the remedy that will cure the many diseases peculiar to women."—*Mother's Magazine.*

"It has passed severe tests and won endorsements from some of the highest medical talent in the country."—*New York World.*

"No remedy heretofore discovered can be held for one moment in comparison with it."
—*Rev. C. A. Harvey, D.D., Washington, D.C.*

This remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLE of any medicine upon the market, and is sold by Druggists and all dealers at **$1.25** per bottle. For Diabetes, enquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE Remedy.

Daily Colonist.

WEDNESDAY MORNING, DEC. 1st, 1880.

L. P. FISHER, Advertising Agent, 21 Merchants' Exchange, San Francisco, is authorised to receive advertisements for the columns of this paper.

THE NEW JUDGES.

The news of the appointment—mentioned six months since as a rumor—of Messrs. McCREIGHT and ROBERTSON, Queen's Counsel, to the recently-created positions of Judges of the Supreme Court of the Province, is confirmed. The appointments have actually been tendered those gentlemen and, so far as our information extends, both have accepted. It is scarcely necessary for us to say that in this place, where both gentlemen have long resided, and where they stand deservedly high in their profession, the selections are popular and that few will be found to urge the slightest objection. Mr. McCREIGHT is an Irish barrister of high character and attainments. He went to Australia about 25 years ago, and in 1859 came to Victoria where he has since remained. In 1871, after confederation, Mr. McCREIGHT became the first attorney general and premier of the Province, but retired from politics at the general election in 1875. Mr. McCREIGHT's age is about 57, and after a long life spent in the practice of his profession he will not be grudged the high and honorable station to which he has been called and the duties of which he is well qualified to discharge. Mr. ROBERTSON, the other appointee, is a comparatively young man. He is a Canadian barrister and came to the province in 1864. A fluent and pleasant speaker, and a hard worker, he has long occupied a prominent position at the provincial bar. In 1871 he joined Mr. McCREIGHT's ministry as provincial secretary, and, with his chief, retired from politics in 1875, declining a re-election. Mr. ROBERTSON, as we have said, is a comparatively young man, being under 40, with many years of what the Americans term "go" in him. By the acceptance of this office he retires from the active pursuit of his profession, which has been lucrative, and is brought up against a dead-wall. Literally his road to further preferment is blocked. He is shelved at an age when the faculties and energies of most men—and his certainly—are still in the gristle, so to speak, and are capable of great expansion and development. We have looked upon Mr. ROBERTSON as one of the coming political lights of the country—with at least 20 years' capacity for the hardest kind of work before him. His acceptance of the post, is, we fear, a mistake, which he will regret, like MORRIS of Manitoba and MOWATT of Ontario, who retired from active life at too early an age and seized the first excuse that offered to return to it. In any case, we wish the new judges well and extend to them and their connections our warmest congratulations. To be selected for the position from amongst so many worthy members of the bar is in itself a distinction which cannot be be too highly prized.

THE "BOOM" AT SEATTLE.

Seattle has bright anticipations of railway construction and Seattle is happy. A company have undertaken to build a line of railway from that port to Walla Walla, have raised $5,000,000 and given a promise of the early commencement of the work. The price of town lots is mounting skywards and the least sanguine express the belief that within five years' time the town will contain a population of 30,000. We are not disposed to dash the hopes and expectations of our American cousins; but Victoria has had her happy, blissful moments, not very long ago, either—moments when a great future seemed assured, when town lots rose rapidly in value, and shrewd, long-headed men went about predicting that here would be the London of the Pacific. On the pledged faith of a great government capital was invested and vast improvements were inaugurated. New life was imparted to every interest and hearts beat high with expectation. But the cup slipped 'ere it reached the lip and the province has experienced the bitterest disappointment. One can only hope that the experience of Victoria will not be that of Seattle—that the company are earnest in their intentions, and that the "boom" at Seattle may prove as lasting as ours was delusive.

THE POLICE.

We give place to-day to two communications on the subject of the city police. The writers are caustic and, we think, in some respects, unjust in their criticism; but under existing circumstances, with burglaries of almost nightly occurrence without arrests being effected, indignant comments from alarmed citizens are excusable. There is certainly "a screw loose somewhere" in the machinery that should be tightened or a new one substituted. The absence of the head of the force for the past three months from the civic boundaries is a grave matter. The recent impudent housebreakings are evidence that to be efficient the entire police force should be always within call. We hope that the committee of the City Council will report a practical scheme for a complete reformation of the force—even should that scheme comprehend a change in the *personnel* as well as the system.

Our Protectors.

TO THE EDITOR OF THE COLONIST:—SIR,—Who is to take charge of the Police? It is requisite that some competent person should take them in hand, drill them and waken them up. At present beyond arresting a few broken-down whiskey sellers and drunkards what on earth do they do?

No one can deny that they are an ornament to Bastion square with their polished boots, blue pilot suits, and sleek, well-fed forms; but I venture to say that something more is required—the public expect something better.

The Police are never seen in the outskirts of the city. Let the City Council put the force through their facings, allot their districts in the city, and make them do their work. One thoroughly efficient detective is absolutely necessary.

CITIZEN.

TO THE EDITOR OF THE COLONIST:—SIR,—The conclusion which is arrived at by most observers is that the police force is lamentably defective in that most important and essential quality, viz., detective ability. From what causes this falling off has taken place I shall not stop to inquire; but I may mention that want of strict and vigilant supervision lies at the root of the evil. When a gang of thieves, some of whose members are on the lookout, find that the police on duty spend a portion of their time in public houses the gang are free to depredate without molestation or interference on the part of the police. Councillors McLean and Mansell deserve the thanks of the community for moving in this matter.

Allow me make a few suggestions to the committee appionted by the Council to consider the whole question. It is not of consequence whether the force or any of them are sent on duty outside the city limits on not; sometimes it would be necessary to ferret out a burglar in that way. But place the force immediately (as Councillor McLean urges) under the control of the corporation; have no superintendent or inspector, (for these offices mean idleness and little work.) Appoint live, active, intelligent working sergeants, one of whom must be generally on duty to see that the men are always on their beats, more especially at night. Should any not be able to satisfactorily account for his absence, let the sergeant on duty report to the Mayor or other acting officer for the time being. Begin, say, with the two seniors; give each ten dollars a month over common pay; let the offices be always filled from the most deserving of the force and thon the men will have preferment to look to to encourage them to make their mark.

OBSERVER.

Dominion Taxation.

TO THE EDITOR OF THE COLONIST: Sir,—I am glad to see that Dominion taxation in this Province is attracting a great deal of public attention. What we pay to the Dominion of Canda and what we get in return for it are very important questions to consider at any time and more especially now at this crisis. As Dominion taxation is mainly levied indirectly upon the consumer in the form of customs duties, people are apt to lose sight of the enormous sum annually extracted from their earnings by the Dominion. They certainly are not so quick to realize it in its present insidious form, or if taken by a direct tax out of their pockets in a lump sum. Men who frequently complain when called upon for provincial taxes to the amount of $5 each for school and road purposes are unconscious that the Dominion is annually taking over seven times as much from them as the province. Yet such is the fact. In 1879 the total revenue drawn by the Dominion from British Columbia amounted to $572,955, an increase of about $250,000 over 1874, although what the province has got in return for paying an extra quarter of a million of dollars it would be very hard to discover. It certainly has not obtained the Esquimalt and Nanaimo railway nor the expenditure of two millions upon the mainland, to both of which it is entitled under the terms of union without any increase of taxation.

Just look at what a squeezing, exhausting thing Dominion taxation now is in British Columbia:

The adult population of this province upon whom taxation falls cannot be over 15,000. It is probably considerably less. Still, giving the Dominion the benefit of this high estimate we find that in 1879 the average sum paid by every adult to the Dominion amounted to thirty-eight dollars. Single men got off with less, but married men with families had to pay very much more. It is no exaggeration to say that the present Dominion tariff takes at least six dollars per month out of the wages of a working man with a wife and four children to support. It is no wonder that times are getting tighter and that a man with a family after working hard and steadily all the year round has to pinch himself and go without things, which he could at one time afford, so as to make both ends meet. It used not to be so before confederation. Men then had plenty of money in their pockets because wages were higher and employment easy to obtain. But, it may asked, how has confederation with the Dominion of Canada so injured British Columbia? Well, very much in this way. In consequence of the present enormous Dominion tariff which is the product of two causes—one the necessity for obtaining more revenue to meet the interest on borrowed money expended in canals in Ontario and railways in the Eastern provinces, and the other the necessity for creating manufactories to provide employment for the hundreds of thousands out of employ and starving in Quebec and Ontario who were anxious to work for China-men's wages to keep body and soul together. The tariff while it has been a very good thing for Quebec and Ontario has been a very hurtful thing to British Columbia and for this reason: British Columbia is a new country, and in all new countries natural products are what are first utilized. In this province they are furs, fish, gold, coal and lumber. To develop these industries the best thing possible would be no tariff at all. The higher the tariff the greater the cost of production, and as the products of the province have to compete with those of other places in foreign markets the price cannot be raised and profits suffer or are wiped right out. When this happens something has to come down, and so it comes to pass that with every rise of the Dominion tariff the laborer and the employer of labor are made to suffer—the former in wages and increased cost of living, and the latter in smaller profits.

Political connection with the Eastern Provinces has been of no benefit to any of our industries. Our coal San Francisco takes. Our lumber South America and Australia; our fish and furs Great Britain and the United States. All that the Dominion takes is our money. The fact transparent to everybody who thinks or observes at all is that confederation has been a great take in for British Columbia.

Development by railway construction as provided by the Carnarvon terms would partly atone for many drawbacks and disadvantages of confederation, but unless at once the Dominion prepares to fulfil its obligations to British Columbia this Province should without any further waste of time take control of customs and government and work out its own salvation.

Yours, truly,

A CANADIAN.

Rough Times in Ireland.

The Dublin correspondent of the *Pall Mall Gazette* wrote to that journal on the 22d ultimo:

"An idea of the pleasures of life in the West of Ireland may be formed from the following incidents. Within three months Lord Mountmorris was shot while driving home from Clonbur. James Ferrick, a bailiff, was shot in broad daylight on the public road, within half a mile of Ballinrode, and the people who passed him as he lay bleeding would not even put a hand to him and draw him from the centre of the road. A man walking with his wife near Castlebar, in the middle of the day, was met by two men, who fired three shots into him and walked away. Messrs. S——, B——, and D——, the three principal agents in Mayo, dare not leave their hall doors to go to their stable yards without the attendance of two policemen with loaded double-barrelled guns. They dare not go to church without them. Walking or driving the police are always with them. Over thirty houses in Galway and Mayo are especially protected by the police. Mr. Boycott, an English gentleman living not far from Ballinrode, became unpopular. An armed party went into his fields one day and ordered his workmen to cease working for him on pain of death. Every man left him. His servants were ordered to leave his employment. They left. A gentleman living with him kept a groom to look after his horse. His man was ordered to depart, as the society had ordered that no servant should remain under Mr. Boycott's roof. But as the young gentleman was popular, they kindly gave him three days within which time he could get rid of his horse. The corn was ripe, and Mr. Boycott himself was obliged to cut it, while Mrs. Boycott essayed to bind the sheaves. A gentleman's steward reported that a carpenter constantly employed about the place neglected his business. The carpenter was dismissed and another engaged. Both carpenters belonged to the society. A meeting was held, and it was decided that the steward must be shot for having injured a brother. The carpenter employed in his place was ordered to shoot the steward, as he would not be suspected. Fortunately, the steward had a friend in the society, and was saved. Some land was given up to General B—— near Athenry. It was ordered that no man should take it. General B——'s agent employed men to cut the hay upon it. They were ordered by members of the Land League not to cut it, and retired. The agent sent his own men to cut the hay. They applied for lodgings in Athenry, but their business being known they were told that without a letter from Father ——, directing that lodgings be given to them, they would not be admitted. They went to the priest, who, on hearing that they had come to cut the hay ordered not to be cut by the Land League, refused to allow them to be accommodated in Athenry, and told them to return at once to their master, which they did. The preserves of Lord O—— have been so openly poached by the young men from the neighboring town that he has been obliged to let them for a nominal sum to a gentleman, that the game may be shot down, as his keepers have been threatened and dare not prosecute the poachers. Their lives would not be safe. Colonel B——, who lives in Dublin, but has property in the barony of Ballynahinch, in Connemara, held a quantity of land in his own hands. Some fields were kept up for winterage. His herders were ordered to give up herding for him, but to remain in their houses. They have done so. His fences are broken down and his own tenants and others have driven in their cattle and eaten all the grass. He has no redress. A parish priest driving home one evening was taken for an obnoxious gentleman. Fortunately for him one of the party of intending assassins ran before his horse and stopped it before they fired, giving him time to throw down his cape, which was over his head, and he was identified. Dozens of houses have been fired into. Cattle, horses and sheep have been frightfully mutilated; hay and corn stacks destroyed, sometimes by burning, sometimes by carrying it bodily away and throwing it into the nearest river. Tenants who have paid their rent or taken farms have been beaten and carved and roasted. Servants accused of faithfulness to their masters have been attacked, and a reign of terror established the like of which has not been felt in Ireland since 1798.

American Mail.

Jacob Terwilliger, a New York farmer on the Shawangunk mountains, fell into a nest of rattlesnakes while picking apples the other day, and though one of them bit him on the finger, he went for them with a big stick and killed eight, the largest five feet long and wearing seventeen rattles. Plenty of whisky saved Terwilliger's life, though he fainted dead away just as he got home, and took two days to kill the poison.

Mohan and Gilliland were well known in Utah as desperadoes. They rode into Eagle Rock in quest of amusement. They began by compelling temperance men to drink with them, the alternative being instant death. Their next diversion was to repeatedly cross a bridge and dare the gate tender, a noted athlete, to come out of his house and collect toll. Then they shot all the dogs and hens in the place. By this time the inhabitants were terrified, and nobody but the two marauders was out of doors. Their crowning exploit was to fire at a woman who was trying to call her pet dog into the house. Keller and Chamberlain were cattle herders, and they got weary of being imprisoned in a store, where they had gone to make some purchases. They carefully loaded a rifle apiece, and went out to rid the town of the nuisance. Mohan and Gilliland fired, but missed, and were speedily killed by the herders.

It was his first appearance at church, and in order that he might sit perfectly still and keep his little chatter between his teeth, he was told that a big dog would bite him if he didn't keep that quiet. The little fellow cast several glances up and down the aisle, and at last, just in the most interesting part of the minister's prayer, started the congregation by piping up, "Mamma, where is the dog?"

How Happiness is Secured.

Happiness is the absence of pain or annoyance, and wherever there is pain there is disease. A pain in the lower portion of the body indicates a disorder of some kind. If there is any odor or color or deposit in the unrine it means disease and requires attention at once. We have heard many of our friends speak of the remarkable power of Warner's Kidney and Liver Cure and are convinced there is nothing so certain and valuable for all disorders of the urinary system both male and female. NOT THE SLIGHTEST AFFINITY exists between the numberless cough mixtures with which the market is flooded and that successful preparation—Northrop and Lyman's Emulsion of Cod Liver Oil and Hypophosites of Lime and Soda. It stands alone, distinct, is like itself and nothing else. It embodies the best results of advanced pharmaceutical service. It accomplishes positive, decisive results, effectually relieving coughs (when the lungs are not tuberculous or hopelessly affected), colds, laryngitis, and diseases of a scrofulous origin. While it does not cure consumption, it is the most reliable means of defence against that dreaded scourge. The invigorating properties of the hypophosphites reimburse the system debilitated by the constant tear and wear of a cough, while the paroxysms rapidly diminish in violence, in consequence of the soothing emolient action of the cod liver oil upon the inflamed lung membrane. The phosphorous, lime and soda, in combination with it, are all natural components in the construction of the bodily edifice, which, in a state of decay, lacks a sufficiency of those elements. These the hypophosphites supply, increasing the nutritive properties of the blood, and building up and rehabilitating the tottering human structure with a degree of promptitude as astonishing as it is gratifying to the invalid. A perceptible gain in flesh as well as in strength is one of the consequences of using this standard preparation, which both time and experience have demonstrated to be fully worthy of the confidence reposed in it. Prepared by NORTHROP & LYMAN, Toronto, and sold by all druggists.

Municipal Police Court.

[Before the Hon. A. F. Pemberton.]

TUESDAY, Nov. 30.

Henry Masse, charged with the wilful murder of Wm. Lawrence at Port Townsend, was again brought up.

Mr. Theo. Davie appeared for the U. S. government and Mr. H. C. Courtney for the prisoner.

Hy. Morton deposed that he resided at Port Townsend in August last and knew the prisoner by sight. He was also slightly acquainted with deceased. He saw them together on a Saturday towards the end of August. They were standing outside the Cosmopolitan Saloon and he heard Lawrence tell the prisoner that he was always "kicking up a row." The prisoner replied that "it was none of his business" and then a disturbance and fighting ensued between them. Witness saw the prisoner take a knife out of his pocket and use it. The deceased and prisoner fought on the sidewalk and shortly deceased threw up his hands and appeared to be quite helpless. Witness could see that prisoner had the knife in his right hand and was striking with it freely on deceased's left side. The deceased, finding that he was wounded, walked to one of the posts of the verandah and put his arm around it to hold himself up. Witness asked him to come into the saloon and he did so and sat down but made no answer. The prisoner then came along and struck him again in the face. Several parties interfered and there were shouts that prisoner was using a knife; "take it away from him." A man named Martin grappled the prisoner to do so, but the prisoner dropped the knife. Witness, after the prisoner had been arrested, saw the deceased lying down on a pile of wood. Eventually deceased was taken into Dr. Minor's office and the last witness saw of him alive was when he was lying on a sofa there. Next morning he saw his dead body at the inquest held at the hospital.

To Mr. Davie—From the first of the fight I saw Lawrence drop his arm and lean against the verandah post.

F. W. Mead, assistant surgeon to the U. S. marine hospital at Port Townsend, deposed that he saw the deceased prior to death. He was drenched with blood. In company with Drs. Gaffaway and Willonson he examined him and found several wounds on his left side. Finding that the deceased was restless and fearing internal hemorrhage would ensue witness gave him an injection of morphine. Shortly afterwards deceased was removed to the hospital where he died from the effects of the wounds.

B. S. Miller, sheriff of Jefferson county, W.T., deposed that he had seen the knife produced in the prisoner's hands several times previous to the murder and that on the morning after the crime it was found by the gaoler at Port Townsend buried in sand in the gaol yard. The prisoner escaped from custody about two months after the murder was committed.

His Honor committed the prisoner for extradition.

James Kelly, arrested on a charge of stealing a watch from Walter Collis, was remanded for the production of evidence.

THE DRYDOCK.—Work is progressing as rapidly on the drydock as possible. A great deal of dirt has been raised and when the tramway has been put in perfect running condition greater progress will be made. The blocks of granite brought from Jervis Inlet are amongst the finest ever quarried and the supply is inexhaustible.

TESTIMONIAL.—The testimonial from the citizens of Victoria to Mr. Thomas White, member for Cardwell, has been handsomely engrossed by Mr. F. G. Richards, jr., and may be seen at the office of Mr. E. M. Johnson.

THE POSTOFFICE.—The mud in front of the postoffice is now at least six inches deep, but strange to say there is no sidewalk laid down outside the scaffolding. The contractors should see to the matter or the street committee will be calling them to account.

THE shipment of treasure by the steamship Idaho for San Francisco was light—only $6,000.

Daring Highway Robbery--An Arrest Effected.

Shortly before 1 o'clock yesterday morning a man who recently arrived here from Puget Sound was walking along Fisgard street on the way to the hotel at which he is stopping when he was accosted by two men who garotted him and took $5 and a bunch of keys out of his pockets. Previous to this Officer Sheppard had observed the suspicious characters on the streets and had tracked them round the town. At about 1 o'clock he came across them in the locality mentioned, and accompanied by Officer Lindsay gave them a lively chase past Masonic Hall and down Herald street where they jumped a fence and made good their escape. Officer Lindsay whilst pursuing the men observed one of them to throw something away which was found after a careful search and proved to be a skeleton key, capable of opening almost any lock in the hands of a skilful cracksman. The key is now in the possession of the police and may afford a clue to the recent burglaries. From the description of the men given by Officer Sheppard, later in the morning officers O'Connor and Lindsay proceeded to Leach's cabins on Yates street and searched an apartment recently occupied by two brothers named Kelly, who hail from Australia. The men were missing but their clothing and bedding was in usual order. Having good reasons for suspicion officers Flewin and O'Connor then went to the Phœnix saloon on the corner of Yates street and Waddington alley where they arrested James Kelly and charged him with being accessory to stealing a $20 gold-piece from a man in the saloon on Monday last. The officers subsequently went to Esquimalt, anticipating that the other Kelly was about to leave on the mail steamer for San Francisco, but he was not to be found. He was seen, however, at 10 o'clock yesterday morning on Yates street and the police are keeping his haunts closely watched.

Seattle and Walla Walla Railway.

The *Intelligencer* announces that the Columbia and Puget Sound Railroad Co. have secured $5,000,000 in cash and that they will immediately begin the work of construction on the Seattle and Walla Walla railway. The company is heavily backed by eastern capital, and now that organization merges the Seattle coal road; also a major portion of stock of the Seattle Coal & Transportation Company, including the Newcastle mines and the greater portion of the ships, the colliers now building in Pennsylvania, 146,000 acres of land east of the mountains, the rolling stock, property and franchises of the Seattle and Walla Walla Railroad Company, etc. On the above property the sum of five million dollars has been raised, and is now on hand to pay for the same. The surplus, which will be a vast sum, will be used in the building of the road from Seattle to Walla Walla and branches to the Cedar and Carbon river coal mines. A branch will also be built from Seattle to Wilkeson, to connect with the Northern Pacific, in order to have direct railroad communication with Portland, Oregon. The Columbia & Puget Sound Railroad Company is organized as an important auxiliary or assistant of the big company mentioned above, and will in a few months probably be merged into it. From this day, concludes the *Intelligencer*, the future of Seattle is assured. Our prediction is that in less than five years this little city will contain within her borders a population of over 30,000 people.

County Court.

[Before Hon. A. F. Pemberton.]

TUESDAY, Nov. 30.

Casamayou & Co. vs. H. Warner—This action came up on Saturday last and was brought to recover $260 for goods supplied. The defendant failed to appear and judgment was entered for plaintiff.

Vaughan vs Garnier and Boughner.—Action to recover $66.92½ for meat supplied. Adjourned until the 7th inst. Mr. W. Pollard for plaintiff and Mr. H. C. Courtney for defendants.

PUGET SOUND.—The barque Lizzie Marshall has been towed into Port Townsend harbor with ten feet of water in the hold, having been aground near Port Ludlow. She is considerably strained.... N. Louis, proprietor of the Oriental Hotel, Seattle, died of heart disease on Saturday.... The release of a mortgage for $150,000, held by "La Societé Francaise d'Epargnes et de Prevoyance Tutuale" against the Seattle Coal and Transportation Company, was filed in the Auditor's office at Seattle on Monday.

DEPARTURE OF HONORABLES.—The mail steamship Idaho sailed at 12 o'clock yesterday for San Francisco. Senators Macdonald, Cornwall and Nelson, and M. P.s McInnes and Bunster were on board, bound for Ottawa to attend the sitting of parliament. They will probably reach the capital about the 11th inst., in time to take part in the debates on the speech from the throne.

MISAPPREHENSION.—To avoid all possibility of misapprehension Mr. T. Chadwick asks us to say that the characters who knocked a Chinaman down on Thursday night on Douglas street, and are alleged to have rifled the Celestial's pockets, did not resort to his premises for refuge. In fact nobody ever supposed that they did.

FOR SAN FRANCISCO. — The steamship Idaho with the direct mails and express, $6,000 in treasure, a full complement of freight and some 30 passengers sailed from Esquimalt for San Francisco at noon yesterday.

SOOKE RIVER.—The prospecting party in the ancient channel at Sooke river have sunk through 14 feet of cement and expect to reach gravel and bedrock on Saturday.

MARINE.—The ship Spartan from San Francisco for Wellington passed up in tow of the tug Pilot yesterday. The ship Cashmere, lumber laden for Australia, went to sea last night in tow of the Etta White.

A CHARGE preferred by the crew of the ship Cashmere against the Captain of desiring to proceed to sea shorthanded, was heard before Mr. Innes and Capt. Raymur, J. P.'s, yesterday and the Captain ordered to procure an additonal seaman.

THE AJAX.—This propeller has been bought by Goodall, Perkins & Co. and will be put in the Nanaimo and San Francisco coal trade.

BAR DINNER.—A dinner to Messrs. McCreight and Robertson, the newly-appointed judges, will be tendered by the Bar.

The Caledonian Dinner.

Upwards of fifty citizens were present last evening at the annual dinner given by the St. Andrew's and Caledonian Society at the Telegraph Hotel. In the unavoidable absence of the president of the society, R. Finlayson, Esq., the chair was taken by Jas. Burns, Esq. the vice-chair being filled by Jno. Ross, Esq. The *menue* was an excellent one, the tables being furnished with all the delicacies of the season, which were cooked to suit the taste of the most fastidious connoiseur. The cloth having been removed the toast list was proceeded with and after the chairman had proposed the health of the Queen, the Prince and Princess of Wales and other members of the Royal family, the Rev. Mr. Macgregor proposed the "Governor General." He alluded in eloquent terms to the fact that the present governor of the Dominion comes from a noble family of Scotland and stated that he fell assured his health would be heartly drunk by the company not simply on that account but because he was united by marriage to a daughter of the Queen. He referred to the ability of the Gov.-General's predecessor, Lord Dufferin, and pointed out that the Marquis of Lorne had great difficulties to contend with when he first assumed office. Notwithstanding these difficulties the Marquis had given a very good account of himself and had proved that he was no mean successor to his noble predecessor. He felt assured if the governor-general should visit this province, as was predicted, that he would meet with as hearty a reception in this city as in any portion of the Dominion. The reverend gentleman's remarks were listened to with marked attention and frequently elicited hearty applause. The "Army, Navy and Volunteers" was next proposed by Mr. Jno. Russell and responded to by Bandmaster Haynes, whose remarks, which were not entirely felicitous, were followed by a good old Scotch song by Mr. Orr. The "Commercial Interests of the Province" was the next toast on the list and Mr. A. R. Milne handled this somewhat difficult subject in a very masterly manner and quoted copiously from statistics to show that British Columbia's exports last year were more than a million dollars in excess of her imports and that the amount of custom dues rolled into the Dominion treasury was, during the past three months, $100,000 greater than in any corresponding period since confederation. He referred to the scarcity of shipping to carry away the produce of our canneries and coal mines and predicted that in the near future—in fact as soon as the war in South America terminates—there would be difficulty in obtaining a sufficiency of ships to freight our lumber. With these facts in view and taking into consideration the solidity of our leading merchants as well as the immunity of the country from the avalanche of commercial depression which visited the eastern provinces last year, he could say with confidence that an era of prosperity was about to dawn for British Columbia altogether unprecedented in extent. His remarks were clear and to the point. Mr. J. Ross then proposed the "Land o' Cakes," after which followed the "St. Andrew's and Caledonian Society" by Mr. E. Stevens; "Sister Societies," by Mr. Thos. Spence; "The Clergy," by Mr. Jno. Russell, ably and eloquently responded to by Rev. Mr. McGregor, chaplain of the society; "The Press," by Mr. Chudleigh; "Retiring Officers," by Mr. Spence; and last, but not least, "The Ladies," the gentleman responding making a happy and appropriate speech. The chairman's list having been exhausted a number of volunteer toasts followed and several hours of rational merriment and enjoyability were thus spent, the music furnished by Professor Palmer's quartette and a number of songs by members of the society, contributing largely to the happiness of the evening.

QUEEN'S BIRTHDAY.—At the meeting of the executive committee for the celebration of her Majesty's Birthday held at the Union Hook and Ladder house last evening it was resolved: "That this committee unanimously agree to celebrate the Queen's Birthday in 1881, and shall in due time wait upon the public for subscriptions." The regatta of 1881 will undoubtedly be a grand affair. The flying squadron will then be in port, and will be cordially invited to participate. The prizes to be offered will be large, inducing many competitors from California and Oregon. We predict a large subscription, good management and fine sport.

FROM KAMSCHATKA.—The schooner '76, Capt. Potts, arrived yesterday from a six months' cruise to the Kamschatka Sea. She reports that during a gale the mate and one of the crew were washed overboard and lost.

THE PRINCESS LOUISE.—It is thought at Ottawa that the Princess Louise will not be sufficiently recovered from the effects of her recent accident to return to Ottawa during the present winter.

LORD COLERIDGE, Chief Justice of the Common Pleas, has been appointed Chief Justice of the Queen's Bench, vice Sir Alex. Cockburn, deceased.

LAYCOCK VS. HANLAN.—A match for £200 and the championship has been arranged and will come off on the Thames in a few days.

THE WORKINGMAN'S BAKERY.—Bread for the working classes. If you want cheap and good bread go to JOHN GERRITSEN'S, Humboldt street, where you will get five loaves for 25 cents. No ricecating animals employed. *

J. BAGNALL, PIANO AND ORGAN TUNER AND REPAIRER, is home again. Instructions for tuning and repairing left at the store, Government street, will be promptly attended to. J. B. has been established in Victoria 18 years. *

UNITED STATES.

WASHINGTON, Nov. 29.—A telegram from Berlin informs the state department that the cases of American naturalized citizens who have been arrested in Alsace and Lorraine on charge of owing military service has been delivered in accordance with the claim of this government and the release of Weil has been already reported, and it is now announced in that case as well as in the previous one of Getres that all fines and penalties imposed by the German government have been remitted.

NEW HAVEN, Nov. 29. — Francis Hotchkiss, a noted banker, died to-day. His wife on hearing the fact fell dead.

WASHINGTON, Nov. 29.—12 noon. For the Pacific coast clear or partly cloudy weather.

EAST STROUGHTON, Mass., Nov. 29. Mrs. Littlefield yesterday poisoned her husband and son and shot herself. This morning her son died.

WEST POINT, Va., Nov. 29.—A fire occurred here last evening which destroyed the extensive warehouse and sheds of the Richmond, York River and Chesapeake railroad company and the company's steamer Shirley as well as the telegraph and freight offices and all the freight on the wharves including 2600 bales of cotton. The loss is estimated at $300,000; insured.

NEW YORK, Nov. 29.—Two ocean steamers are still overdue at this port.

ENGLAND.

LONDON, Nov. 20.—For the match made to-day between Hanlan and Laycock betting is already strongly in favor of Hanlan.

SPAIN.

MADRID, Nov. 29.—The French ambassador has protested against ostentatious countenance given to the expelled monks by the Spanish ministerial press. He also objects to their establishment near the frontier of France. Despite the energetic remonstrance of of representatives of European powers and of the United States persecution of the Jews continues in Morroco.

LONDON, Nov. 29.—A *Times'* Paris special says the promotion of the Panama canal scheme has been resumed with astonishing vigor. The motion is so universal that success as regards the necessary capital is certain. De Leseps stated to-day that news arrived every moment confirming his conviction that the enterprise is sound. Every country in Europe is taking a part in it. Offers are being opened in Germany, Austria and Italy and subscriptions are flowing in. The English have run up shares on the Paris bourse by sending orders which cannot be executed except by paying a premium. The founder's shares, which were 5,000 francs, have reached 10,000 francs.

LONDON, Nov. 29.—The parish priest of Ballinrobe has received a letter in which he is threatened with instant death if Boycott is shot. The letter bears the Monaghan post mark.

The remains of Estella Anna Lewis were deposited in the catacombs of Kensal Green cemetery yesterday preparatory to the removal to New York.

THE FORTY-SIXTH CONGRESS.

Twenty Days for the Consideration of Eight Thousand Bills.

NEW YORK, Nov. 8.—The *Post's* Washington special says:—There will be but forty-nine working days in the entire session of Congress after substracting the holiday recess, Sundays, public holidays, and days appropriated to the District of Columbia and to private bills from the nominal three months of the session. It will take thirty days to read, discuss, and pass the necessary appropriation bills. This leaves about twenty days for purposes of general legislation. There are more than 8,000 bills in various stages of forwardness, which must be finally acted upon during these twenty days or go by default. Of the entire number of Bills thus far presented about 160 have been passed by the Forty-sixth Congress, including the yearly appropriation bills.

ARRESTED THE WRONG WOMAN.—A curious incident in connection with the execution of the March decrees occurred last week at Marseilles. Two or three ladies, apparently belonging to the best society, were walking quietly in the direction of the Capuchid Convent, when they were accosted by the police and ordered to move off. One of the ladies drew herself up and exclaimed, "Government of brigands! Government of thieves!" She was instantly surrounded, arrested and led away to the police office. "Madame," said the wrathful Inspector, "this will teach you to be less insolent another time." "Learn to know your own place," replied the offended dame. Arrived at the poste, the lady was questioned. "Your name? Your residence?" The arrested one answered,, and the result was general stupefaction at the police station. Humble apologies were offered, and the "prisoner" took her departure in triumph. The lady in question was none other than Mme. Poubelle, the wife of the Prefect of the Bouches du Rhone. At the meeting of the Marseilles Municipal Council, held on Friday, the Mayor promised, at the request of M. Castan, to institute an inquiry into the affair.—*Paris Corr. London Globe, October 26th.*

THE SPIRIT OF THE AGE denotes a struggle to excel. Everything must bow to this ambition as if it were a supreme mandate. To meet this strife and encourage all competitors, fortunately Nature has imbued individual minds with great dissimilarities in tastes. Who will presume to say that the Christmas and New Year Cards issued from the house of Sidney Saunders of London, are more chaste or elegant than those from Prang & Co. of Boston? We have been culling the choicest gems from these and other publishers which come dropping into our place of business like a shower of pearls in season to reach their addresses abroad in the nick of time. *
